

You create an **Invisible** sensor within range in a location familiar to you (a place you have visited or seen before) or in an obvious location that is unfamiliar to you (such as behind a door, around a corner, or in a grove of trees). The intangible, invulnerable sensor remains in place for the duration.

When you cast the spell, choose seeing or hearing. You can use the chosen sense through the sensor as if you were in its space. As a Bonus Action, you can switch between seeing and hearing.

A creature that sees the sensor (such as a creature benefiting from **See Invisibility** or **Truesight**) sees a luminous orb about the size of your fist.

Clone

Level 8 Necromancy (Wizard)

Casting Time: 1 hour

Range: Touch

Components: V, S, M (a diamond worth 1,000+ GP, which the spell consumes, and a sealable vessel worth 2,000+ GP that is large enough to hold the creature being cloned)

Duration: Instantaneous

You touch a creature or at least 1 cubic inch of its flesh. An inert duplicate of that creature forms inside the vessel used in the spell's casting and finishes growing after 120 days; you choose whether the finished clone is the same age as the creature or younger. The clone remains inert and endures indefinitely while its vessel remains undisturbed.

If the original creature dies after the clone finishes forming, the creature's soul transfers to the clone if the soul is free and willing to return. The clone is physically identical to the original and has the same personality, memories, and abilities, but none of the original's equipment. The creature's original remains, if any, become inert and can't be revived, since the creature's soul is elsewhere.

Cloudkill

Level 5 Conjuration (Sorcerer, Wizard)

Casting Time: Action

Range: 120 feet

Components: V, S

Duration: **Concentration**, up to 10 minutes

You create a 20-foot-radius **Sphere** of yellow-green fog centered on a point within range. The fog lasts for the duration or until strong wind (such as the one created by **Gust of Wind**) disperses it, ending the spell. Its area is **Heavily Obscured**.

Each creature in the Sphere makes a Constitution saving throw, taking 5d8 Poison damage on a failed save or half as much damage on a successful one. A creature must also make this save when the Sphere moves into its space and when it enters the Sphere or ends its turn there. A creature makes this save only once per turn.

The Sphere moves 10 feet away from you at the start of each of your turns.

Using a Higher-Level Spell Slot. The damage increases by 1d8 for each spell slot level above 5.
