Otiluke's Freezing Sphere

Level 6 Evocation (Sorcerer, Wizard)

Casting Time: Action

Range: 300 feet

Components: V, S, M (a miniature crystal sphere)

Duration: Instantaneous

A frigid globe streaks from you to a point of your choice within range, where it explodes in a 60-foot-radius **Sphere**. Each creature in that area makes a Constitution saving throw, taking 10d6 Cold damage on failed save or half as much damage on a successful one.

If the globe strikes a body of water, it freezes the water to a depth of 6 inches over an area 30 feet square. This ice lasts for 1 minute. Creatures that were swimming on the surface of frozen water are trapped in the ice and have the **Restrained** condition. A trapped creature can take an action to make a Strength (**Athletics**) check against your spell save DC to break free.

You can refrain from firing the globe after completing the spell's casting. If you do so, a globe about the size of a sling bullet, cool to the touch, appears in your hand. At any time, you or a creature you give the globe to can throw the globe (to a range of 40 feet) or hurl it with a sling (to the sling's normal range). It shatters on impact, with the same effect as a normal casting of the spell. You can also set the globe down without shattering it. After 1 minute, if the globe hasn't already shattered, it explodes.

Using a Higher-Level Spell Slot. The damage increases by 1d6 for each spell slot level above 6.

Otiluke's Resilient Sphere

Level 4 Abjuration (Wizard)

Casting Time: Action

Range: 30 feet

Components: V, S, M (a glass sphere)

Duration: **Concentration**, up to 1 minute

A shimmering sphere encloses a Large or smaller creature or object within range. An unwilling creature must succeed on a Dexterity saving throw or be enclosed for the duration.

Nothing—not physical objects, energy, or other spell effects—can pass through the barrier, in or out, though a creature in the sphere can breathe there. The sphere is immune to all damage, and a creature or object inside can't be damaged by attacks or effects originating from outside, nor can a creature inside the sphere damage anything outside it.

The sphere is weightless and just large enough to contain the creature or object inside. An enclosed creature can take an action to push against the sphere's walls and thus roll the sphere at up to half the creature's Speed. Similarly, the globe can be picked up and moved by other creatures.

A **Disintegrate** spell targeting the globe destroys it without harming anything inside.
